

SYSTEM DESCRIPTION

Leveraging proprietary technology, the EZ-RO 375/5G system uses Reverse Osmosis (RO) to reduce Total Dissolved Solids (TDS); it produces 375 gal/day (1,419 L/day)* and includes a 4CM cartridge to reduce scale and hardness*, and chlorides†. The EZ-RO 375/5G system is designed for use in combination with Pentair EverPURE® reverse osmosis membranes.

APPLICATIONS

Combi ovens

Steamers

and more

FEATURES • BENEFITS

Meets combi oven and steamer requirements; reduces scale and hardness*, and chlorides†.

4CM cartridge provides optimal performance; reduces scale and hardness*.

Compact design fits in tight spaces.

Easy-to-use design for cartridge replacement.

Works with Pentair EverPURE® RO membranes.

Multiple patents pending on product design.

Easy-to-use design for cartridge replacement.

Meets combi oven and steamer requirements; reduces scale and hardness*, and chlorides†.

Compact design fits in tight spaces.

Easy-to-use design for cartridge replacement.

Works with Pentair EverPURE® RO membranes.

Multiple patents pending on product design.

INSTALLATION TIPS

When installed, serviced and maintained properly, the EZ-RO 375/5G system will provide clean, safe drinking water for your business.

Follow the installation guide for proper setup and maintenance. The EZ-RO 375/5G system is designed for easy installation and maintenance.

Detailed, illustrated installation guide is available for download. Contact your local Pentair representative for more information.
