

PN Series Shallow Well Jet Pumps are corrosion- and abrasion-resistant and are ideal for wells with pumping levels of 25' or less.

Self-priming after the pump housing is initially filled with water.

Capacities to 18 GPM. Available in 1/2, 3/4 and 1 HP models.

Supplied with the industry standard 30-50 pressure switch setting.

APPLICATIONS

Water Systems

Booster Pump

Marine Use

Mist Sprayers – Poultry

Fountains and Water Features

SPECIFICATIONS

Body and Seal Plate: Fiberglass-reinforced thermoplastic

Impeller: Engineered polymer

Base: 1/8" -gauge steel

Nozzle, Venturi, Diffuser: Polypropylene

STA-RITE® PN Series

Corrosion-resistant, self-priming shallow well jet pumps
