

READ AND FOLLOW SAFETY INSTRUCTIONS!

This is the safety alert symbol.

When you see this symbol on the product or on the packaging, you should read the safety instructions that go with it. It tells you about the possible dangers of the product and how to avoid them. It also tells you about the correct way to use the product. It is important that you read and follow the safety instructions carefully. If you do not, you could be injured or the product could be damaged.
